Speech video Transcription

State of Global Integration

The speaker states that the world order is currently experiencing a rupture rather than a simple transition. Crises in finance, health, energy, and geopolitics over the past two decades have highlighted the risks of extreme global integration

Weaponization of Global Trade

Great powers are increasingly using economic integration as a weapon, leveraging tariffs, financial infrastructure, and supply chain vulnerabilities for coercion.

Canada's Path and Strategy

Countries cannot live within the lie of mutual benefit when integration leads to subordination. The speaker emphasizes building domestic strength, acting together, and choosing a path of openness and confidence, inviting other nations to join.
